RADISHES NEED SMALL SPACE

Rich, Well-Prepared Soil Is Essential and Good Seed Should Be Used-Parsnips and Salsify Deserve Attention.

(Prepared by the United States Department which of the root crops really is the most important, say garden specialists of the United States Department of

Radishes are among the first garden crops to be planted in spring, and a very small space is required to produce all that is needed by the average family. The soil should be loose, mellow, and very rich, so the radishes will grow quickly and be crisp and tender. Radish seeds should be planted in a shallow furrow and covered about onehalf inch deep. Two or three varieties should be planted in order to have a continuous supply. French Breakfast and Scarlet Globe Turnip are among those which mature in the shortest period, while Long Scarlet Short-Top and Long White Vienna or Lady Finger are good to follow the extra early varieties. Plant Beets Early.

Garden beets can be planted almost of Agriculture. as soon as the soil can be worked in days, while the longer ones require pounds. 100 to 120 days to complete their | Fully half of the peanuts grown i

the Southern states are fed to hogs. where the peanut enjoys copopularity muda 1 per cent.

FEEDING VALUE OF GARBAGE Affords Hogs Well-Balanced Ration and Supplementary Feeds Are

Not Necessary.

Most garbage is of such variety that enables a hog to balance its ration that supplementary feeds are not required. In some cases, however, the nimals are finished off on corn, barley, wheat middlings, and similar feed just efore they are marketed. The feedng value of garbage, however, especially carefully selected garbage, is such that it is seldom economical to use any additional grain supplement. However, when grain is low in price, good results might be obtained by feed-Radishes Are Among the First Garden ing garbage alone during the summer months, when ordinarily there is a large production, and finishing the hogs prepared soil is the first essential. on grain. Greater gains per day can be Good seed is important, and the seed made with a grain supplement, but at

when you want that next job of

You will get first-class work, and you will get having work done when promised is one of the rules of this office.

If you prefer, send the order by mail or bring it to the office in person. Let Us Show You What We Can Do

A Merchant

We know says that it's his job to please his customers. He is 100 per cent right. It's our job to please merchants by providing the kind of printing that is wanted. Try us and see what we can do.

We Make Good

You Say You Can't Advertise

That's what others have said and all of a sudden found some competitor was doing what they thought they couldn't do. And getting away with it Get the bulge on your competitors by telling your story in an attractive manner so it will be read. You'll get the results. We Are Anxious to Help

live pigs, as to size and quality, 11@ *****************

THE kind of printing that pays dividends is the kind you should have. Pale, muddy, poorly arranged printed matter is worse than one. The quality of your ess is often judged by the quality of your stationery - inferior printing gives an pression of cheapness that hard to overcome, while food printing carries with it a sirable suggestion of quality. We produce only Quality Printing. Whether you want an inexpensive handbill or a

letterhead in colors, if you order it from us you will be sure of getting good work.
We have the equipment and
the "know how" that enables us to get out really good printing-printing that impresses people with the good taste of ts users. That is the only kind of printing that

Harding's Stand Against Proposed Plans

URGES TWO ALTERNATIVES

All Plans Opposed-Neither Excess Profits Or Sales Tax Will Be Adopted By

Congress. Washington .- President Harding in formed Congress he considered a general sales tax the only feasible method of raising funds for a soldier bonus. The executive in a letter addressed to

Chairman Fordney of the House Ways and Means Committee suggested that unless Congress saw fit to enact a sales tax passage of bonus legislation should "I believe," the President wrote, "the American people will accept the levy of a general sales tax to meet the proposed bonus payments, and we should tribute thereby no added difficulties to the problems of readjustment. ii Congress will not adopt such a plan it

would be wise to let the legislation go over until there is a situation which will justify the large outlay." Declaring that the Government had under consideration the disposition of surplus war properties and other transactions which should bring "great relief" to the treasury, the President said It would be wise to let the legislation go over if Congress did not deem it advisable to adopt the sales tax. The President's letter was regarded generally at the Capitol as leaving the

bonus situation even more complicated

than before. Senate and House sub-

committees were to meet late in the

day to receive and consider the White House communication. When the sales tax was discussed in the sub-committees last week it is understood that Senators were informed that less than 100 Republican votes in the House could be mustered for a sales tax as a method of financing the adjusted compensation. Such a tax had been considered by House leaders as a possibility but virtually had been

Praised By Calder. Senator Calder of New Cork, a Republican member of the Senate Finance ittee, issued a statement commending President Harding's stand and declaring that all proposals for a cash bonus should be abandoned. "In the present state of the nation's fnances," said Senator Calder, "it
